

## CONSENT FOR USE OF PHOTOGRAPHS AND VIDEOS

I, the undersigned individual, hereby provide my free, unambiguous, and informed consent to Intertek (hereinafter the “Controller”), in satisfaction of the requirements set forth under Regulation (EU) 2016/679 (the General Data Protection Regulation or “GDPR”) and Swiss Federal Act on Data Protection (FADP), to take and use photographic images and video recordings of me during the event taking place at the venue organised by the Controller. I acknowledge that the photographs may include my likeness as well as any identifying attributes that appear in those images.

I understand and agree that these photographs and video recordings may be processed and used by the Controller for the lawful purposes of documenting, promoting, or reporting on the Controller’s activities and the specific event at which the photographs and video recordings are taken. This includes potential publication in printed or online materials, as well as on the Controller’s official website and any social media profiles operated by or on behalf of the Controller, provided such use respects the principle of data minimisation and adheres to all other principles of data protection as required by the GDPR and Swiss data protection laws.

I further understand that my consent is freely given, and I may withdraw it at any time without detriment or cost. Should I wish to withdraw consent, I may contact the Controller at the contact details provided and request the cessation of any further use or processing of my photographs and video recordings for which this consent serves as the lawful basis. Upon receipt of such a request, the Controller shall discontinue any new processing activities based on my consent and shall delete or anonymise my photographs and video recordings, unless another lawful basis permits the Controller to retain them in limited form (e.g., for the defence of legal claims).

I have been informed that I retain the right to request access to my personal data, to request rectification of any inaccuracies, to request erasure or restriction of their processing, and to object to certain forms of processing, in accordance with Articles 12 through 22 of the GDPR and the relevant Swiss implementing legislation. Furthermore, I am aware that I have the right to lodge a complaint with the Federal Data Protection and Information Commissioner (FDPIC), should I consider that the processing of my personal data infringes the GDPR or Swiss law.

By providing my signature or otherwise granting my express consent (electronically or in writing), I confirm that I have read and understood this declaration, that all my questions regarding the Controller’s intended use of my photographs and video recordings have been answered, and that I hereby agree to such processing under the above-mentioned terms.
